Summary

I am a passionate and creative Front-End Web Developer. I also know the back end. I know some technologies of web development such as HTML, CSS, JavaScript, and React. I completed some awesome full-stack project.

Technology & Skills

Expertise: HTML5 | CSS3 | JavaScript | flow chart | React | Bootstrap | React Bootstrap | Tailwind CSS
Comfortable with: React Router | Firebase | Rest API | React Query | MongoDB | Node.js | Express.js
Familiar with: Material UI | TypeScript | Next JS | Redux | React Native | JWT
Tool & Software: Visual Studio Code | GitHub | Chrome Dev tool | Vercel | Netlify | Figma | Photoshop

My Projects

1. Phone Store | [Live website Link](#) | [GitHub Cline](#) | [GitHub Server](#)

The Website made for old products to sell. People can create both a seller and buyer account. Sellers can add products and they can advertise.

- This is a Full stack website for use smart phone resale.
- Used firebase for authentications (email, password, and google login). There is 2 private route one can add service and can edit and delete one's review after login.
- User seller and admin roles added with the Google authentication system.

Technology Used: React Router, firebase, vercel, JWT token, React Query, CRUD, MongoDB, tailwind.

2. Web Development Programmers | [Live website Link](#) | [GitHub Cline](#) | [GitHub Server](#)

By viewing the project on the left side, you can click on any course to know about that course and download the course through PDF.

- This is a full stack website. Beautifully handled responsiveness
- User can easily register and login. Email, Password & google authentication is implemented.
- Database used Firebase and MongoDB

Technology Used: React router, Firebase, vercel, crud, google authentication, react toast.

3. The Quiz School | [Live website Link](#) | [GitHub Link](#)

Education Website a quiz platform, Selecting answers to various MCQ questions from JavaScript, react.js, CSS etc medium.

- This is a full stack website. Beautifully handled responsiveness.
- Elegant and stylish design.
- There are separate sections for each topic. There is a chart included in this project which indicates the number of questions, and a view icon that shows the correct answer to the questions.

Technology Used: Used react-router-dom for routing, react-toastify for notifications, and Recharts for showing chart.
